

MEDIA DISPLAY

Control Options: Media Display M-Code; M130 is used within an NC program to call up media files (images, videos, PDF files) from memory and display them on the control screen as the program runs. NextGen Control only.

Included

RTAP-3

Control Options: Rigid Tapping; synchronized tapping, with built-in tap cycles and up to 8X retract speed.

Included

SAFE RUN

Control Options: Safe Run; a software feature in the Haas control that reduces the chances of significant machine damage during a machine crash.

Included

SMTC-30-40T-HS

Tool Changer: High-Speed Side-Mount Tool Changer, 40 taper, 30+1 tools

Included

SW-1-YEAR

Warranty: 1-Year Standard Warranty. Haas products carry a full 1-year warranty on the entire machine, including the control – that's 365 days x 24 hours.

Included

WIFI

Control Options: WiFi Connection for the Haas Control; provides wireless connectivity between the Haas control and a local area network.

Included

WINDOW BLAST FEATURE

Options: Haas Window Blast; airgun-activated feature for clearing coolant from the machine's window during machining.

Included

Through-Spindle Coolant

*TSC

Through-Spindle Coolant, 300 psi (21 bar). Provides high-pressure coolant directly through the cutting tool. Requires 3-phase power. Note: TSC cannot be installed in the field unless the TSC-READY option is ordered with the machine.

\$ 6,795

Additional Axis

4AXD

The Haas 4th-axis drive allows the use of a fully integrated 4th-axis Haas rotary table or indexer for multi-sided machining.

\$ 2,695

Probe System

WIPS-R

Wireless Intuitive Probing System; Renishaw. Includes the Haas Visual Programming System, macros, spindle orientation, and coordinate rotation and scaling.

\$ 5,995

Chip Removal System

AUGER

Chip Auger; automatically removes chips from the machine, while compressing them and wringing out the coolant.

\$ 3,095

Options

טקטים בע"מ

CABCOOL

CNC Control Cabinet Cooler; reduces the internal temperature of the control cabinet to boost reliability and increase component life No external power required.

\$ 1,695

EXPACK

Export Packaging; additional packaging required for machines shipping outside of North America.

\$ 1,495

HIL-24V

High-Intensity Lighting; externally mounted LED lights that turn on/off automatically with the machine doors, or manually via switch.

\$ 895

P-COOL

Programmable Coolant Nozzle; a multi-position nozzle that automatically directs coolant precisely at the cutting tool.

\$ 1,795

Transformer***HV-ISO-XFRMR**

Internal High-Voltage Isolated Transformer for 380-480V operation.

\$ 3,095

Control Options**COORD**

Coordinate Rotation and Scaling; allows you to rotate your part program to another location, and increase or decrease (scale) the size of a toolpath or pattern.

Included

HSM

High-Speed Machining; allows faster feedrates and more complex toolpaths, without hesitation or starving the machine.

\$ 3,095

MACRO

User-Definable Macros; allows you to create custom subroutines for canned cycles, probing routines, special functions, and more.

Included

SO

Spindle Orientation allows the spindle to be positioned to a specific, programmed angle, using the spindle motor and spindle encoder for feedback. This option provides inexpensive and repeatable spindle positioning accurate to 0.5 degree

Included

VPS

Visual Part Programming System; a proprietary conversational programming system to quickly write G-code for simple milling routines.

Included

Accessories**LK**

Lifting Kit; includes the hardware and brackets necessary for lifting the machine.

\$ 95

**Not available for field installation.*

Haas Quick Quote is for example only. Your Haas Factory Outlet can provide a formal price quotation. Prices, specifications, availability and specific configurations may change without notice. Despite our best efforts, a small number of items may contain pricing, typography, or photography errors.

Shipping, delivery, transportation and rigging charges are not included in this quote.
