

EuroMac Hydraulic Punch Press STX

Flex 12 1250/30-2500

Specifications		
Item	Unit	1250/30-2500
Max. punching force	kN	300
Y axis with Multitool /Monopunch (mm)	mm	1300 / 1250
X axis (mm)	mm	2500
Automatic repositioning in X	mm	up to 10000
Numerically control stroke depth	mm	from 0.1 to 31
Hydraulic servomotor controlled system		standard
Position accuracy (mm)	mm	+/- 0.05
Precision in forming repeatability	mm	+/- 0.1
Bidirectional Autoindex stations		3
Opening of clamps	mm	11
Automatic positioning clamps		2
Max. hit rate:	1/min	
Punching with 20 mm pitch		460
Nibbling with 1 mm pitch		1080
Marking		2000

Thickness range	mm	0.6 - 6.5
Max. weight at reduced axis speed	kg	180*
USB port		6
Installed power	kW	8.5
Average consumption	kW/h	4.5
Approx. Weight	kg	
X = 2500		8500
Overall dimensions	mm	
X = 2500		4840 x 3630

* for sheets of over 50 kg weight combined brush and balls tables are required
